DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

2. Claims 1-4, 8, 11, 13, 17, 19-20, 26, 29, 31, 35, 37-38 and 41-42 rejected under 35 U.S.C. 102(e) as being anticipated by Mankoff (US Patent 6,385,591).

As to claims 1-4 8, 13, 17, 19, 26, 31, 35, 37 and 41-42, Mankoff discloses an electronic couponing method comprising the steps of:

wirelessly transferring (see col.2 lines 3-5) coupon information including a coupon identification number (see col.5 lines 38-40) to a first portable terminal and storing (see col.4 lines 18-36) the coupon information therein, said coupon information entitles the carrier of the coupon information to a discount on the purchase of goods and/or services (see fig.3).

displaying (see abstract) a representation of the transferred coupon information on the first portable terminal; and

wirelessly transferring at least part of the stored coupon information including the coupon ID number from the first portable terminal to another terminal (see col.4 lines 37-40); and

validating in another terminal the transferred coupon information; and if the coupon information is validated, calculating the discount provided by the coupon information to the purchase of goods and/or services (see col.5 lines 40-46).

As to claims 11, 20, 29 and 38, Makoff discloses at least part of the stored coupon information is transferred from the portable terminal to another terminal via an infrared link (see col.3 lines 25-26).

3. Claims 6, 10, 15, 21, 24, 28, 33 and 39, are rejected under 35 U.S.C. 103(a) as being unpatentable over Mankoff and further in view of Souissi et al. (US Patent 6,327,300).

As to claims 6, 10, 15, 21, 24, 28, 33 and 39, Mankoff fail to disclose a bluetooth radio link.

Souissi et al. disclose wherein it is advantageous to include a bluetooth radio link (see col.1 lines 11-21). It would have been obvious to one of ordinary skill in the art at the time the invention was made to modify the system Mankoff with the above teaching of Souissi et al. in order to transfer data in short range between mobile station and desktop computer for the purpose of universal short-range radio link peripheral interface.

Response to Amendment

4. Applicant's arguments with respect to claims 1-5 and 41-42 have been considered but are moot in view of the new ground(s) of rejection.

Art Unit: 2682

5. In response to applicant's argue on page 13 paragraph 3. The examiner relies on the part of Souisi teaching Bluetooth radio link, but not relies on other features of Souisi.

Conclusion

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
